

# Helping Hands

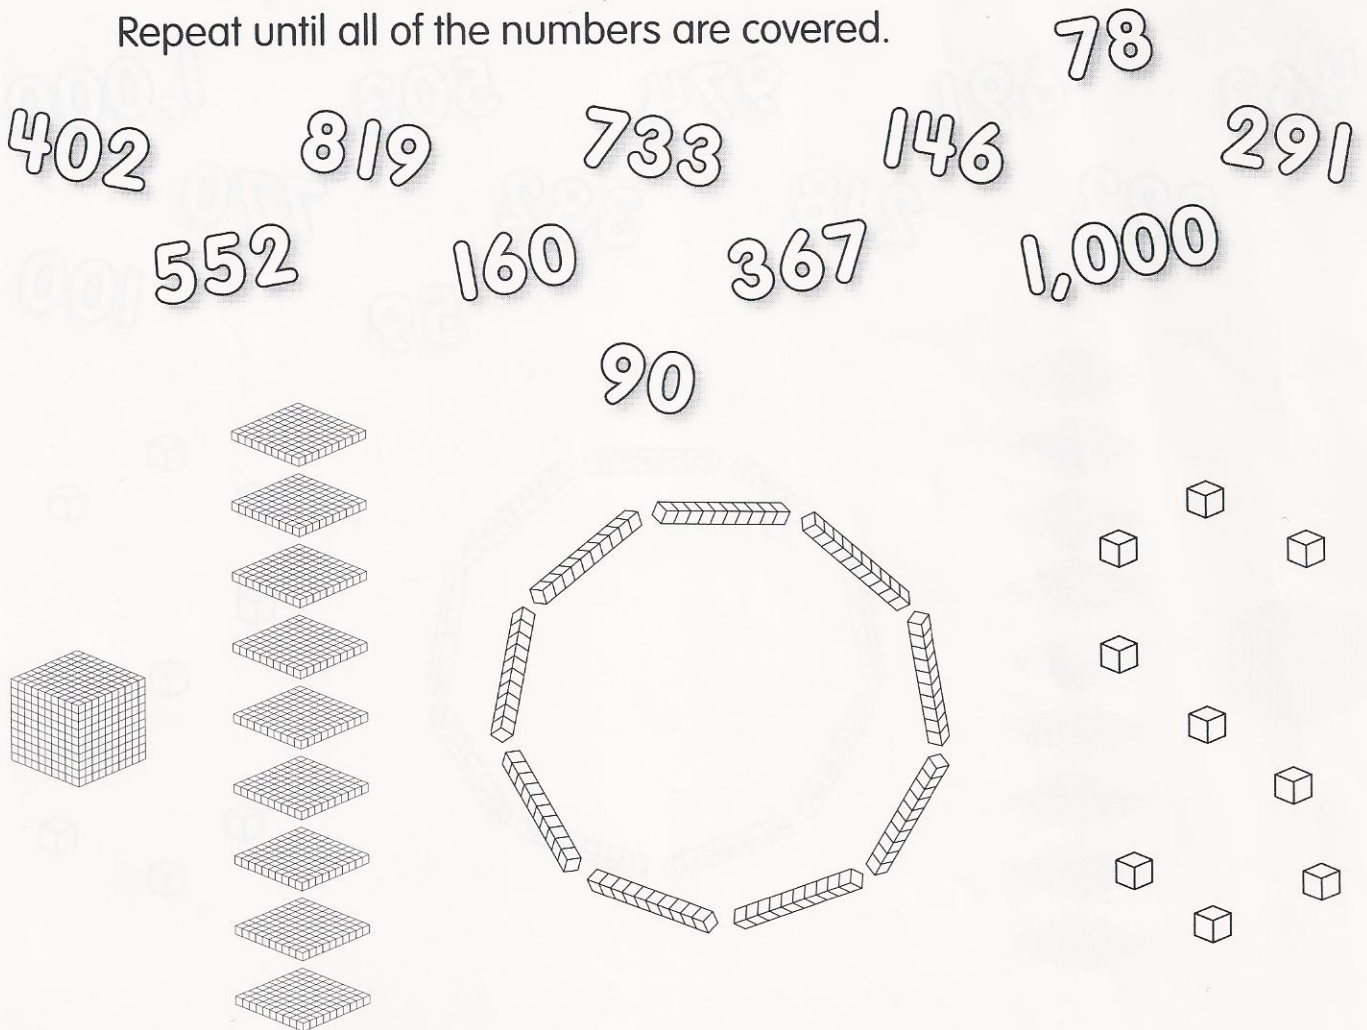

## Start

Get 11 squares. Get a Use the flat end to tap on the blocks. Take turns.

## Try

Point to a number on the activity page. Say that number. Trace that number in the air. Ask your partner to tap on the place value blocks to show that number. Ask your partner to say the number in expanded form. For example, 367 is  $300 + 60 + 7$ . Cover the number with a square. Repeat until all of the numbers are covered.

## Try Again

This time, make up your own number up to 1,000. Ask your partner to tap on the place value blocks to show that number.
